In the Claims

Please amend claim 1 in accordance with 37 C.F.R. 1.121 to the clean version shown below. A marked up version showing the details of the changes is presented in Appendix A.

Clean Version of Claims as Amended

1. (Amended) A method for printing an indicia on a label in a system for printing one or more labels comprising the steps of:

(a)   reading a label configuration file wherein said label configuration file is indicative of one or more label stocks;

(b)   selecting a label stock;

(c)   reading a definition file associated with said selected label stock;

(d)   selecting an amount of labels to be printed;

(e)   printing said amount of labels in accordance with said definition file such that a label pair comprising a destination address label having a destination address and a corresponding indicia label having an indicia is printed, wherein said corresponding indicia further comprises a destination barcode; and

(f)   tagging said label pair with a unique identifying mark.
